

WILD KIDZ VIDZ ACTIVITY SHEET

DINGOES

Do you remember what Jacques answered when Xavier asked him if his dingoes Khan and Cinder were dogs?

* What things make dingoes different?

* Do they bark?

* Do they have floppy ears? (Luca knows this!)

* After you listen to all the information on the video can you use some complete sentences to describe dingoes? You can talk about their appearance and their unique skills.

* Dingoes are CARNIVORES so they eat _____

* Dingoes are Australia's APEX PREDATOR which means

and they are really important in our ECOSYSTEM keeping Nature's balance.

* How long do people think dingoes been on the Australian continent?

* How old are Xavier's dingoes? Khan is _____ and Cinder is _____

* Dingoes that live in the wild only live to around 6 or 8 years. Why do you think that happens when Xavier's dingoes are so much older already?

* Xavier tells us that dingoes are one of the oldest canine species in the world but sadly now their CONSERVATION STATUS is "THREATENED".

What do you think that means?

Can you find out if dingoes are protected in Australia?

* What do you think we could do to protect dingoes?

* Indigenous aboriginal people have a long history connected to dingoes. How did they interact with dingoes?

* Do you know that not everyone can keep a dingo as a pet. There are special rules and conditions. Why do you think that is necessary?

* Can you find some pictures of dingo pups? There are special centres that breed pure dingoes. They are very cute! Maybe you can add your picture to this page
